EDUCATION

Cornell University

August 2024 - May 2026

Master of Science, Design & Technology

- Cumulative GPA - 4.1
- 1 paper published at **NeurIPS 2025**

California College of the Arts

July 2019 - May 2023

Bachelor of Fine Arts, Human Computer Interaction

Computational Practices (Minor)

- Cumulative GPA - 3.953
- Graduated with high distinction

TOOLS

UX/UI Design Tools:

Figma
Adobe Xd
Sketch
Framer
Lovable / Replit
Mural / Miro / Fig Jam

Adobe Creative Suite:

Adobe After Effects
Adobe Illustrator
Adobe Premiere Pro

Office Tools:

Notion
Lark
Microsoft / Google Office

3D Modeling:

Rhino, Grasshopper
Blender

Unreal Engine 4

Programming Language:

JavaScript, HTML, CSS
Python

SKILLS

Design / Product:

Design Thinking
Product Strategy
Persona & User Journey
Accessibility (WCAG)
Info. Arch & Wireframing
Rapid Prototyping

Research / UXR:

User Research
Qual & Quant Analysis
Competitive Analysis
Heuristic Evaluation
Usability & User Testing
A/B Testing

Execution:

Agile Methodology
Project Management
Multithreaded Execution
Cross-Functional (XFN)
Collaboration

Engineering & AI:

Front-End Dev
Machine & Deep Learning
Reinforcement Learning
Computer Vision (CV)

Other:

3D Parametric Modeling
Graphic Design

WORK EXPERIENCE

ByteDance / TikTok - Global Payment, [Agentic & E-Comm / LIVE / FinTech]

Product Designer - Shanghai, China

2026/6 - Now

- AI-Native Design Workflow:** Owned AI-native workflow strategy, enabling designers to ship production-ready UI code within legacy architecture; cut development cycles **93%**, design QA to **<1** round, and bugs to single digits
- US TikTok AI Agentic Commerce Payment Growth:** Owned payment UX and strategy; lifted Pure / Hybrid UCP Checkout Show → Complete Payment from 10% / 17% to 17% / 25% (+7pp / +8pp; **+70% / +47.1%**), funnel conversion 10%+, and **payment conversion 70% → 80%**
- Owned 3 Global Payment Product Lines:** Led Aggregated, Refund, and Withdrawal Checkout UX across 6+ TikTok business lines, Lark, CapCut, and 25+ products; reused shared capabilities to cut market/channel/payment-method-specific effort **40%+**, saving **5-9 person-days**
- TikTok Promote payment Growth:** Identified 18 optimization opportunities and shipped 5 P0-P00 initiatives, raising overall PSR to **88.54%**
- UK TikTok Creator Card Conversion Growth:** Led primary-card setup; drove **42K+** impressions and 963 setups in **2 weeks**, with 64.67% uplift, **+145% MoM UV**, and +107% MoM conversions
- Cross-Market Payment Capability Reuse:** Scaled reusable payment capabilities across products, expanding payment coverage, success rate, and user trust while reducing duplicate design and compliance / UX risks; raised overall PSR to **89.60%**

ByteDance / TikTok - Global Payment, [E-Commerce / FinTech]

Product Design Intern - Shanghai, China

Jun 2025 - Aug 2025

- Cross-Market Insurance Benchmark:** Led research across PH, ID, MY, TH, and the US; captured 800+ end-to-end screens across **9+** competitors, built a standardized benchmark, and delivered **2** regional reports supporting MY / TH / US launches and iteration
- TikTok Shop Insurance UX Optimization:** Identified **10+** issues behind GWP / NPS decline; redesigned checkout insurance entry points and benefit visibility and drove **2 P0 initiatives** into the next release, reducing add-on funnel drop-off and improving GWP conversion and NPS

Johnson Controls, [Design System / Infrastructure]

UX Design Intern - Milwaukee, WI (Remote)

Jul 2022 - Sep 2023

- 0→1 Design System:** Helped build and launch Element Design System (EDS), adopted by **35+** product teams, improving UX/UI consistency, delivery efficiency, and design quality
- Design System Adoption:** Co-defined system principles, led biweekly Figma training & EDS onboarding, and scaled EDS adoption across the organization
- Reusable Design Assets:** Built EDS UI Kit & documentation with **6** Design Patterns and **27** Components, including data visualization; cut component creation time **42%** and improved Design Token efficiency **65%**
- Design Efficiency & Business Impact:** Reduced maintenance time **62%**, freed **26%** more time for product innovation, saved **\$800K+**, and delivered **\$200K+** average annual net savings
